

Faculty, staff and students honored at Awards Night

Awards Night, an annual event to recognize academic excellence and leadership in students, staff and faculty, was held last Wednesday, April 23.

A number of organizations recognized or gave awards to more than 90 individuals, most of them students, including Who's Who in American Colleges and Universities. But several faculty and staff members got their share of the glory, too.

The most anticipated award, presented at the end of the program, was the dedication of the current Tower Clock yearbook. That honor went to Francis C. Higgins, chairman of the Chemistry Department and a 1936 Gallaudet graduate.

Hal Domich, associate professor of history, was chosen as Faculty-Staff Member of the Year by the Student Body Government.

Jack R. Gannon, director of the Alumni and Public Relations Office, was named Man of the Year by Alpha Sigma Pi Fraternity.

Frances M. Parsons, assistant professor with the Tutorial Center, was named Mother of the Year by Alpha Sigma Pi.

Leon Auerbach, professor of mathematics, was selected Teacher of the Year by Alpha Sigma Pi.

Two Service Awards were presented by Chi Omega Psi Sorority: to Dorothy Polakoff, director of the Social Work Program, and Henry Young, head resident advisor.

John Vancleve, assistant professor of history, was named the Man of Merit by Delta Epsilon Sorority.

Shirley Shultz, instructor of English, was made an honorary member of the Phi Alpha Phi honorary society.

The event was organized by Committee C, under the direction of chairperson Nancy Kensicki. The committee is composed of both faculty and students.

Elli Klein of NASDSE (left) and Ellen Denenberg of OHI chat with a Kendall Primary student through Jim Newby of KDES, who interpreted.

Congressional staffers tour Pre-College

Staff members of several key House and Senate Subcommittees and from the Office of Handicapped Individuals spent a recent morning touring and observing the Pre-College Programs.

The visit was arranged by Sue Ellis, External Affairs Officer, and coordinated through the offices of MSSD Principal Robert Mobley and Mike Deninger, acting dean of KDES.

Robert R. Davila, vice president for MSSD/KDES, welcomed the group, with Mobley, Deninger, Rich Lytle, Nancy Cowan, Jean Moore and Margie Somer providing orientation.

Of particular interest to the group were the new Kendall building, Individualized Education Programs, the Preschool and

the round-the-clock emphasis on educational programs at KDES and MSSD.

Edward C. Merrill, Jr. joined the visitors for lunch and a question and answer session at the close of the morning's program. Those attending the orientation included Elli Klein, National Association of State Directors of Special Education, who helped coordinate the event; Patria Forsythe, Betty Griffin and Helyn Eagle, of the Senate Subcommittee on the Handicapped; Judy Wagner, House Subcommittee on Select Education; Wallace Babington, director, Office of Handicapped Individuals, HEW; and three interns from that office.

Writing Awards held Thursday

This Thursday, May 1, is the date of the second annual MacDougall Creative Writing Awards, a program established in honor of Randy MacDougall, late husband of Nanette Fabray MacDougall.

A number of Gallaudet students have entered the competition, and on Thursday one of them will walk away with the first prize of \$1,000. Second and third prizes and honorable mention will also be awarded.

The awards, given to students who show the most promise as writers, were established by Nanette Fabray MacDougall, her son James and the Writer Guild Foundation.

Three workshops will be given during the day, and two are open to any interested faculty, staff and students. Bernard Bragg, Gallaudet's Artist-in-Residence, will give a workshop on playwriting at 2:30 p.m. in HMB 213. Trent Batson, director of the American Studies Program, will hold a workshop on signed poetry in the same room at 3:30 p.m. Contest participants will be able to attend a workshop given by Michael Bortman, scriptwriter for the movie, "And Your Name is Jonah," where they will be given help in improving previously submitted writing samples on the topic of Gallaudet.

Contest winners will be announced at 4:45 p.m. Judges for the contest are John Canney, associate professor of English; Willard Madsen, associate professor with the Department of Sign Communication; Hal Gould, syndicated columnist ("Hal's Hunches") and Beryl Benderly, author of a book on deafness entitled *Dancing Without Music: Deafness in America*, to be published this fall by Doubleday.

The contest participants and invited guests will be honored that evening at a dinner at the Sheraton Carlton Hotel hosted by Nanette Fabray MacDougall and Dr. & Mrs. Edward C. Merrill, Jr.

Major reorganization announced for MSSD/KDES

by Roxanne Gromelski

In an effort to streamline communication and better coordinate services, major changes in the management structure of both the Kendall Demonstration Elementary School and the Model Secondary School for the Deaf were announced recently.

The revisions will occur by the fall of 1980—in time for the opening of the new school year.

According to Robert R. Davila, vice president for MSSD/KDES, the important changes at MSSD will "ready the school for the leadership of the new dean." A screening committee is presently meeting to review applications and interview candidates for this position. The new dean will be able to assume the position any

time after July 1, according to Davila. "We're looking for new leadership and fresh ideas," the vice president told the MSSD faculty and staff at the April 17 meetings.

One of the most significant changes at MSSD will be the elimination of the Division of Education, headed by David Updegraff. Updegraff, who has served in various administrative capacities at MSSD since October, 1975 will assume a position in the Pre-College Programs under the direction of Davila. The MSSD principal, Robert Mobley, and Dean of Students Richard Lytle, will report directly to the MSSD dean. Responsible to the dean of students will be an assistant dean of students, the MSSD athletic director, residence program supervisors and a clinical

services program supervisor. Reporting to the principal will be an assistant principal, an associate principal, five instructional program supervisors and the LRC (Learning Resource Center) program supervisor.

Davila said he hopes the reorganization will serve to stabilize educational programs and support services at MSSD. He spoke of the role of the Pre-College Diagnostic Center in providing assessment services for students from across the country and the impact it will have on many departments at MSSD and KDES.

Other changes announced by Davila will include alterations in the calendar year for non-teaching faculty members, whose status will be reclassified as "administrative." Their calendar year will not coincide

Serendipity

Library Bits & Pieces

Gymnastics in Ole Jim

by Corinne Hilton

The first gymnasium on campus, before Ole Jim was built in 1881, was a rather makeshift affair. One of Mr. Kendall's frame tenant houses was moved a few feet behind Chapel Hall. There were a dozen of these houses facing Boundary Street (Florida Avenue), which Mr. Kendall rented. The house was furnished with simple gymnastic apparatus for recreational gymnastic activities.

A regular course in gymnastics was not introduced in the curriculum until the completion of Ole Jim in 1881. This building had a swimming pool in the first floor which measured 26 X 40 feet and was surrounded on three sides by dressing rooms. A bowling alley with two lanes occupied the north side of the first floor. The second floor had an area of 48 X 62 feet and 32 feet high for gymnastic exercises. There were hand swings, horizontal bars, dumbbells, barbells, Indian Clubs and weight lifting machines. The Annual Report of the Columbia Institution for the Deaf, 1881 states, "The interest manifested by our students in the gymnasium is very great, and we have reason to anticipate a marked improvement in their physical standard." The total cost of the building, installation of utilities, apparatus, furniture, cost of plans and specifications, was just under \$14,600.

The first instructor was John J. Chickering, an Amherst College graduate and son of Gallaudet faculty member John W. Chickering. He held this position until 1890. He was succeeded by Albert F. Adams, Gallaudet Class of 1886. Under Mr. Adams' instruction, gymnastics reached a high point of excellence.

In 1894, the young women began training in gymnastic and gave annual exhibitions. In addition to gymnastic exhibitions, many student dances and parties were held in Ole Jim. It was once the center for intermingling of the alumni and the campus community.

College Archives

by David de Lorenzo

Dr. Samuel Johnson, in his *Dictionary of the English Language*, defines a lexicographer as "a harmless drudge, that buries himself in tracing the original . . ." It could be claimed that archivists to some extent share those indiscretions. For doesn't it seem that one of the archivists' creeds says: "I will dutifully cherish the autograph, the symbolic document, the archival series and will protect these collections in my care from the greedy public?" Are not archivists thought of as senile purveyors of the past, and keepers of dusty documents?

Yet, beyond all this, the key word here is, of course, "original," which archivists maintain. Also, whether one believes history to be fact or fiction, one cannot deny the inviolable nature of artifacts. Archivists, therefore, deal with both origin and artifact. Specifically, here at Gallaudet College, the Archives contains the artifacts of the College from its very beginning, its origin to the present day.

But, you may ask, what are those artifacts? This is a proper question which requires several examples. We do not have in the Archives *A History of Aardvarks*, or even stuffed aardvarks. However, we might have information relating to aardvarks if, for example, Lars Larson, superintendent of the New Mexico School for the Deaf, had been an avid aardvarkist and had written incessantly about his love for aardvarks. We do not have photographs from the 1958 issue of "Playboy Magazine." We do, however, have photographs of a much more revealing nature relating to the history of the College in its various aspects, some dating as far back as the 1850's.

Yet this discussion is not meant to limit the scope of the artifacts maintained in the College Archives, for there is a great variety and quantity. This discussion is meant really to tickle your curiosity, to let you know that in your midst lies a veritable gold mine of information, as yet untapped, relating to the history of the deaf. For more information call x5585 or TTY x5580.

Students enrolled in the EPOC Summer Program attended an employer panel discussion on April 15. Panelists were, from left, Ted Anson, director of Corporate College Relations for the East Coast, IBM; Meredith Bransen, director of the Total Communication Program at the National Children's Center; and Jose Sanchez, director of Equal Employment Opportunity, U.S. Department of Justice. The panelists responded to questions raised by EPOC students and addressed issues dealing with on-the-job procedures and behaviors. Student evaluations indicated that this was a positive step toward preparing them for their EPOC work experience. The EPOC staff will conduct a follow-up "On the Job" Workshop this Tuesday, April 29 from 6-9 p.m. in the North and South lounges of the Library.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. More details can be obtained from Glenn Pfau, director, Office of Sponsored Research, x5030 (voice or TTY).

Deadline	Program
05/13/80	NIE—Research on Knowledge Use and School Improvement
05/15/80	Center for Field Research—Post-doctoral Scholars to Support 1981 Field Research
05/27/80	OHDS—National Conferences on Aging Program
06/01/80	NIH-NIA—Social and Behavioral Research on Aging
06/15/80	NEH—Consultant Grants
06/30/80	USOE—Community Education Program
06/30/80	NIE—Educational Research and Development
07/01/80	NEH—Higher Education Grants: Regional and National
08/01/80	NSF—Measurement Methods and Data Resources
08/19/80	NSF/NIE—Development and Research in Mathe-

tics Using Information Technology
NSF—Science in Developing Countries
NSF—History and Philosophy of Science

Weekly program highlight

There are several excellent funding opportunities for Gallaudet College related to the field of aging, a future high priority research area for the Division of Research. The National Institute on Aging, Office of Human Development Services, DHEW, has established proposal deadlines for various aspects of aging: National Conferences on Aging Program—May 27; National Continuing Education and Training Program in the Field of Aging—May 27; Postdoctoral Fellowships, Special Research Awards, Senior Fellowships, Clinical Investigators, Research Career Development, Program Project Grants, Special Initiatives and Institutional Training Grants—no listed deadlines; Social and Behavioral Research on Aging—June 1 and July 1, 1980. Grants to individual investigators will be up to \$30,000 for up to three years; most of the other research-related grants and cooperative agreements are expected to range from \$25,000 to \$150,000.

Reorganization

continued from page 1

with the students' schedule, as has been the case in the past. This change will not become effective for another full school year.

The vice president also announced that William Saunders, head of MSSD's Clinical and Support Services, will assume a position as counselor at Kendall this fall.

Among the major changes at Kendall, as explained by Acting Dean Mike Deninger to KDES faculty and staff at an April 14 meeting, will be the initiation of a child study "team" concept to better serve specific student groups and facilitate improved communication and support services. "Too many of our services are fragmented; we need to coordinate them better," he said. The acting dean will name a committee, to consist of two teachers, two specialists and a program supervisor to develop further this "team" concept.

In the Kendall reorganization, the Divisions of Student and Family Services and Instruction will no longer be namesakes but will be incorporated into the total management picture, as will the Co-Curricular Department (physical education, home economics

and art).

Reporting directly to the dean will be the principal, the coordinator of Curriculum and Program Evaluation, the coordinator of Community Programs and Services, and the assistant to the dean. The assistant principal, After School Program coordinator and head librarian will report directly to the principal, with supervisors from Preshcool, Primary, Diagnostic and Support Services, Elementary and Middle School also responsible to the principal. The positions of principal, assistant principal, coordinator of Curriculum and Program Evaluation, and Diagnostic and Support Services supervisor are currently being advertised nationally. June 15 is the deadline for application, with screening committees to be set up to review applications and interview candidates shortly after that.

Carl Kirchner, currently director of the Division of Instruction, made known his plans to leave the director's position at KDES a few months ago, after several years of service at Kendall.

The announcement of the Kendall reorganization was preceded by many months of planning. A consultant was called in from the Mid-Atlantic Training Corporation to streamline the reorganization effort

and prioritize concerns of the KDES administrators and instructional supervisors. Deninger explained that no one is being "dismissed" and every individual whose job will be changing will have an opportunity to discuss impending reassignments with their professional skills and needs in mind.

At the morning session, the acting dean also discussed the importance of the soon-to-be Pre-College Diagnostic Center, the development of an admissions policy and planning for programs to serve the needs of a multi-handicapped student population. He announced plans to support the cued speech project at the National Child Research Center in Washington, DC for another school year (until June, 1981). The ongoing project, which has been supported by Kendall for several years, provides an alternate type of educational training using cued speech as the main communication strategy.

Other issues discussed at the meeting included an expanding mainstreaming program; curriculum development, implementation and evaluation; enrollment; the transportation program; the management structure; concerns of parents; and selection of a school psychologist (expected to be announced soon).

President's Office Notes

A tour of the campus—1990

As noted in an earlier article in *On the Green*, Gallaudet College has submitted to the Board of Zoning and other District agencies a revised Campus Master Plan which outlines the physical changes we expect to occur over the next 10 years. This plan represents only a "best guess" about our future. To describe the changes now visualized, we invite you to take a walking tour of our 1990 campus. Ready? Let's go!

As we enter the main gate from Florida Avenue, we notice a small building to the right up the hill. This is a Security Building located so that visitors and community folks alike can receive assistance 24 hours a day. Notice the pull-over area for visitors. Continuing up Lincoln Circle East we notice that the Auditorium has doubled in size. An Annex has been added which provides a work area and rehearsal/classroom space for the Theatre Arts program.

Further up the walk we find that the parking lot we once used has disappeared, replaced by a beautiful new Field House and adjacent parking structure. We notice that some of the playing fields have been rearranged a bit and that joggers are running around a path near West Virginia Avenue which continues along Corcoran Street and Mount Olivet Road. Of course, the KDES temporary buildings are gone.

As we are about to walk around Lincoln Circle North we catch a glimpse of the new Learning Center in the Mall. We detour toward it and enter a new world—a beautifully landscaped mall with

circular walks, plenty of trees and shrubs, several sculptures, tasteful lighting and intimate groves. We notice an addition to the SUB/Ely and that the whole complex looks better and is alive with activity.

A walk along Lincoln Circle South, past College and Chapel Halls, confirms that the whole Historic District also seems brighter; all the buildings have had a facelift and new lights have been added.

Wandering over to Olmsted Green and Faculty Row, we notice the same green lushness present 10 years before. However, on the edge of the area, near the restored Old Gym, we find a series of small buildings used to house visitors and a Continuing Education and Conference Center where the Division of Public Services resides. On up Lincoln Circle West across from Peet Hall and Mary Thornberry stands an Advanced and Special Programs Building containing most Research programs and the Computer Center. From the number of young people going in and out, it is apparent that classes are taught there also.

As we approach Lincoln Circle North from the west, we realize that there seem to be more students than we remember. Our guide confirms this, saying there are 50% more College students (about 2,000), 50% more MSSD students (500) and 100% more KDES students (300). She points out Dorm 6 on the hill beside Fine Arts, Dorm 7 in the middle of Agatha Haines Plaza, and Dorm 8 on the West Virginia side of Dorm 5 where many of these additional students live. All buildings seem to be accessible.

We are running late and need to return to our car in the 6th Street Parking

Garage for the trip back home, but there have been few changes in the Pre-College area and except for the new Maintenance/Transportation Building on Gallaudet's Penn Street property, we have seen all new construction completed during the last 10 years.

We have been impressed with the campus. Somehow the new trees, lights, walks and other subtle differences combined with the continuity of design of the new buildings has brought the whole campus together visually.

21st Annual Drama Awards Night

The Theatre Arts Department will present the 21st Annual Drama Awards Night this Saturday, May 3 at 8 p.m. in the Gallaudet College Auditorium. There is no admission fee. Appropriate attire is requested.

Energy conservation

by Jim Hull

The President of the United States on April 15, 1980 extended the Emergency Temperature Restriction Law for an additional nine months.

As previously announced, cooling temperatures will be set at no less than 78 degrees F. Residences, sleeping quarters of dormitories, infirmary and KDES are exempt. Where controls permit, lounges and public areas of dormitories are not exempt. Computer operations are exempt.

The Physical Plant will endeavor to regulate centrally controlled temperatures. Control of window air conditioner units will be the responsibility of the room occupants subject to the penalties provided by the law.

Your cooperation is respectfully requested.

Political workshop begins Friday

Want to learn more about taxes, education and health benefits? Or improve the roads or reduce violence in your neighborhood? You can learn all this and more in a political workshop this Friday and Saturday, May 2 and 3.

The free workshop is co-sponsored by Gallaudet's Adult Education Demonstration Program, Rep. Michael Barnes (MD) and Washington Metro Deaf Alliance.

A Friday night wine and cheese reception and mock political rally on the second floor of the Plaza Dining Hall will kick off the event, beginning at 7 p.m. At 8:15, congressmen and leaders from the National Association of the Deaf, Metro Washington Deaf Alliance, Maryland Association of the Deaf, Northern Virginia Association of the Deaf and Deaf Pride will speak. Rep. Charles Ryan and Don Pettingill, director of Demonstration Programs, will offer concluding remarks. Edward C. Merrill, Jr. will speak briefly at 9:15.

Workshop participants will convene Saturday in Room 1202 of the Dirksen Senate Office Building for registration at 8:30 a.m. The day will feature discussion of how government works, lobbying, campaigning and getting politically involved in your own community.

To register, contact Demonstration Programs, x5597 (voice or TTY).

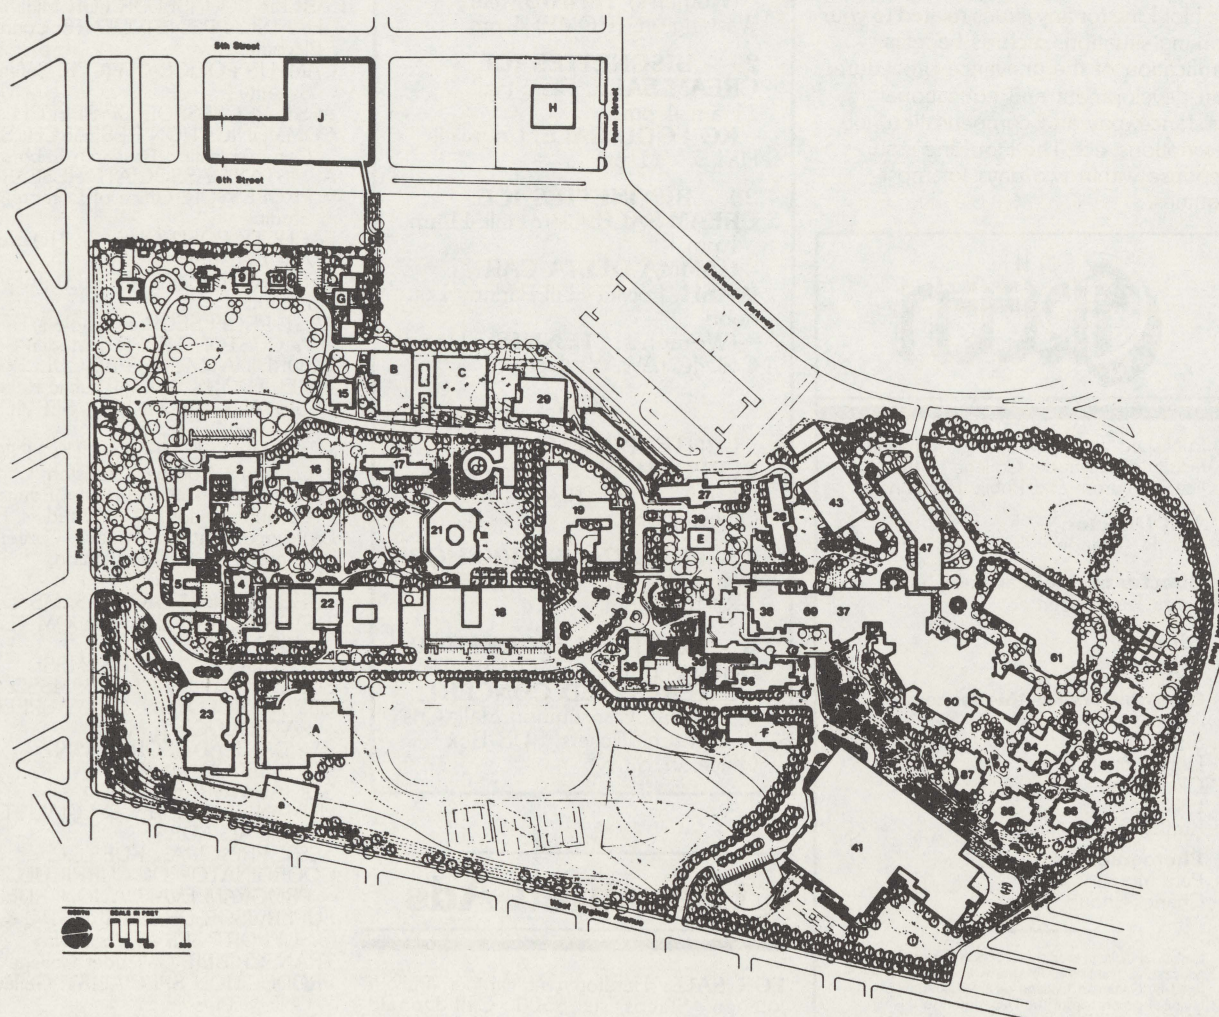

Correction

Dates for the beginning and ending of each fiscal year on campus were reversed in last week's Message from the President's column. Our fiscal year begins Oct. 1 of one year and ends Sept. 30 of the following year.

Illustrative site plan of Gallaudet campus—1990

Personalities

Marston Morgan recently began work here as the new campus planning coordinator. He will work with the Planning Office architect in facilities planning. Morgan comes to Gallaudet with a wealth of experience in facilities planning, urban and land use planning, education and architecture. As a state official and college planner, he has been directly involved in designing, budgeting, evaluation and administration of a number of public construction projects over the past 15 years. Prior to coming to Gallaudet, he practiced as a private architectural and planning consultant in Eugene, OR.

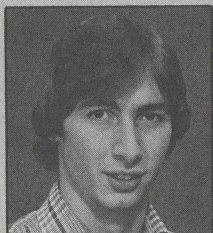

Morgan

Brown

Gwendolyn R. Brown is the new office coordinator in Alumni/Public Relations. She will be responsible for management of the office. Previously, she was office manager and graphics assistant in the DC Public Schools.

Durkee

Rick Durkee is a programmer with Business Data Services, responsible for program development. A graduate of the University of Maryland, he previously worked with the National Association of Letter Carriers Union Headquarters as a system analyst. Durkee was married April 26 to Judy Nendea.

Nancy Sax is a computer operator with MSSD for the TICCIT system. She has a BS in Elementary Education/English and was previously an instructional assistant at Northern Virginia Community College.

Sax

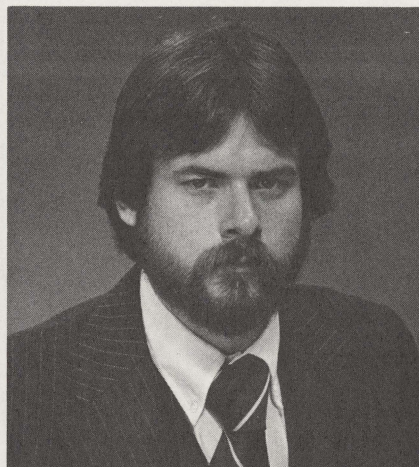

Hillyer

Barbara Hillyer is an accounts receivable clerk with the student account in the Accounting Department. She is responsible for processing VR accounts, research, filing, telephone and student contact. She attended Bowie State College and previously worked as an accounts receivable clerk for District News Company and payroll technician for the National Gallery of Art.

Conviction in assault case

The prosecution effort against a 23-year-old southeast Washington man in connection with assaults in Cogswell Hall have been successful. On Monday, April 14, 1980 the jury found Andrew Mack guilty on several charges involving incidents occurring in Cogswell Hall in July and September of 1979. Sentencing will occur later, but Mack now faces two possible life sentences.

The Cogswell Hall incidents shocked

Lt. Earing supervises Investigations unit.

and upset the entire campus community. The campus police responded with the most extensive investigation in their history. Lt. Tom Earing, supervisor of Investigations for the campus police, was in charge of the case and has been given credit by both the Metropolitan Police Department's Sex Squad and the U.S. Attorney's Office for successfully solving the case.

"The case was very difficult because of a number of highly technical legal issues that developed during the course of the investigation," said Earing. "The slightest mistake involving a very minor legal technicality could have resulted in the guilty part permitted to go free. We didn't want that to happen and very carefully developed our case."

Detective Stephan Dade, a long-time veteran of the Metropolitan Police Department's Sex Squad and an experienced investigator on sexual assault cases, was highly complimentary of the campus police's handling of the investigation.

"The man would never have been apprehended or convicted had it not been for the correct actions of Lt. Earing and the other members of the campus police who worked on the case," said Dade.

Chief Floyd Holt of the Department of Safety and Security commented that he was pleased with the results. "I believe that our successful handling of such a complicated investigation is a further reflection of the increasing professionalism of our campus police officers," he said.

Policies & Benefits

Information Hot Line

by Steve Kallan

Telephone extension 5111 has been established as an Information Hot Line. The purpose of the Hot Line is to provide a direct communication link for response to any questions or concerns you may have relating to any aspect of personnel policy. The Hot Line guarantees prompt and confidential responses. Everyone in the Gallaudet community is encouraged to use this service.

From time to time you may have questions or concerns that cannot be answered within your department. Use the Hot Line for any issues related to your working situation, such as benefits, clarification of the grievance procedure, staff development and educational assistance, pay and compensation, job descriptions, etc. The Hot Line assures a response within two days for most inquiries.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.
